

Open Day Activity Key details

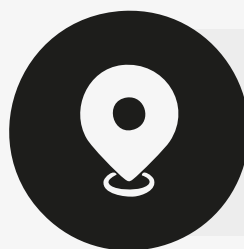

carlaconference.org/

9:00 AM – 3:30 PM
(General Public)

9:00 AM – 12:00 PM
(High-school focus)

The Jamaica
Pegasus Hotel:
Legacy Suite

The **Latin American High Performance Computing Conference (CARLA)** is a leading forum that highlights cutting-edge advances in high-performance computing (HPC), supercomputing, and artificial intelligence. For the first time, this distinguished event will take place in Jamaica, offering a unique setting that combines academic excellence with the vibrant spirit of the Caribbean.

What to expect:

Interactive exhibits, research posters, and conversations with industry and academic teams about how HPC and AI solve real-world problems in the Caribbean and Latin America

Who should attend:

Students, educators, public-sector agencies, local businesses, community organizations, and anyone curious about technology and innovation

Contact: carlaconference.org/contact-us/

Interested in the full conference? You can register to attend CARLA's complete program—keynotes, paper sessions, tutorials, workshops, and panels—all week.

Visit the conference website for details and registration.
